

Courses Applicable to LAS Groups I and IV – 2001-2003

All courses taken to fulfill the General Education Requirements (GER) must be completed on a graded basis: They may not be courses offered on a Satisfactory-Fail (S-F) basis, nor may they be courses taken Pass-Not Pass (P-NP)

Experimental courses (listed with an X following the course number) are eligible for use in the general education groups once the course proposals have been approved. Others will be added to the list on a continuing basis.

For interdisciplinary (cross-listed) courses, see department of primary listing for acceptability. Cross-listed courses may be used to satisfy requirements in any group for which they have been approved, but a student may not apply the same course to more than one group. If a course acceptable for satisfying the GER requirements is cross-listed, then a student may take it under either course designator. If such a course, under either cross-listing, is used to satisfy a requirement in the department of the first major, it may not be used in the general education groups.

The University requirements in U.S. diversity & international perspectives may be met through certain courses marked (*Diversity), (**International Perspectives), or (***) Diversity OR International Perspectives) in the list below.

Check the website at <http://www.iastate.edu/~registrar/courses/div-home.html> for current courses.
