

# Biology Degree Requirements 2016-2017

Biology Major at Iowa State University

Have Questions About the Biology Minor?  
Visit Student Services in 103 Bessey Hall  
or call 515-294-1064

Obtaining a Bachelor of Science degree in biology at Iowa State University requires the completion of 120 credits total. Up to 65 semester hours (97 quarter hours) earned at two-year colleges can be applied, as can courses taken at other 4-year institutions. All students must maintain a 2.0 or higher cumulative grade point average (GPA) to complete a degree. The final 32 credits of coursework must be taken at Iowa State.

Students are ultimately responsible for all issues concerning the satisfactory completion of degree requirements, and should be aware that many professions require specific courses that may go above and beyond the minimum degree requirements of the Biology Program.

## University Requirements

| Course #   | Course Name   | Credits |  |
|------------|---|---------|--|
| ENGL 150   | Critical Thinking and Communication                   | 3       | FYI...<br>A grade of C or higher is required in ENGL 150, ENGL 250, and the advanced communications course.        |
| ENGL 250   | Written, Oral, Visual, and Electronic Composition     | 3       |  |
| (variable) | Advanced Communications (determined by major/college) | 3       |  |
| LIB 160    | Information Literacy                                  | 1       | International Perspectives and U.S. Diversity are frequently double-counted with college-level degree requirements |
| (variable) | International Perspectives                            | 3       |  |
| (variable) | U.S. Diversity  | 3       |  |

Additional information about University requirements can be found at (<http://catalog.iastate.edu/collegescurricula/>); details about English requirements, including test-out and placement, at (<http://www.engl.iastate.edu/isucomm/>); and lists of approved courses that meet International Perspectives and U.S. Diversity at (<http://www.registrar.iastate.edu/students/div-ip-guide>).

## College Requirements

Students may major in biology either through the College of Liberal Arts and Sciences (LAS) or the College of Agriculture and Life Sciences (AgLS). The differences in requirements are as follows:

|                   | LAS Requirement                                    | AgLS Requirement                 |
|-------------------|--|----------------------------------|
| Foreign Language  | 101/102 college level -or- 3+ years in high school | none required                    |
| Advanced Comm.    | writing (ENGL 302 to 316) or speech (SP CM 212)    | speech (SP CM 212)               |
| Math              | mathematics and/or statistics                      | mathematics AND statistics       |
| Science           | natural sciences                                   | biological and physical sciences |
| Arts & Humanities | 12 credits (~4 courses)                            | 3 credits (~1 course)            |
| Social Sciences   | 9 credits (~3 courses)                             | 3 credits (~1 course)            |
| Ethics            | none required                                      | 3 credits (~1 course)            |

LAS also requires 45 credits of 300-level coursework, all but 7 of which are met by completing minimum requirements of the biology major. Lists of approved courses that meet the general education requirements for the two colleges can be found at: (<http://www.las.iastate.edu/students/academics/general-education/>) and ([http://www.agstudent.iastate.edu/student\\_services.php](http://www.agstudent.iastate.edu/student_services.php)) for LAS and AgLS, respectively.

## Biology Major Requirements

Students must have at least a 2.0 GPA for the biology core and the advanced biology areas of the major, as well as at least a C- in all classes taken in these two areas.

### Biology Core

| Course #               | Course Name   | Credits  |
|------------------------|---|----------|
| BIOL 110 -or- BIOL 112 | Introduction to Biology -or- Transfer Student Orientation | 1 -or- R |
| BIOL 111               | Opportunities in Biology                                  | 0.5      |
| BIOL 211 & BIOL 211L   | Principles of Biology I & lab                             | 4        |
| BIOL 212 & BIOL 212L   | Principles of Biology II & lab                            | 4        |
| BIOL 312               | Ecology (with lab)  | 4        |
| BIOL 313 & BIOL 313L   | Principles of Genetics & lab                              | 4        |
| BIOL 314               | Principles of Molecular Cell Biology                      | 3        |
| BIOL 315               | Biological Evolution                                      | 3        |

### Advanced Biology

Select 21 credits of coursework from the approved list (see pages 3 and 4). At least 9 of these credits must be from BIOL, EEOB, or GDCB course offerings, and 2 courses must include a laboratory/field component.

### Complementary or Supporting Science Requirements

#### Mathematics

Students must complete two semesters of calculus and/or statistics. Appropriate sequences depend on career interests and choice of college. Biology majors in LAS may opt to take calculus or statistics only, while biology majors in AgLS must take one statistics course and one math course (typically calculus).

|   | Mathematics Courses                            | Statistics Courses               | Credits |
|---|--|----------------------------------|---------|
| <i>Statistics Only Sequence (LAS)</i>         | <i>none (LAS option ONLY)</i>                  | STAT 101 or STAT 104, & STAT 301 | 7 to 8  |
| <i>Calculus Only Sequence (LAS)</i>           | MATH 165 & MATH 166, or<br>MATH 181 & MATH 182 | <i>none (LAS option ONLY)</i>    | 8       |
| <i>Calc &amp; Stat Sequence (LAS or AgLS)</i> | MATH 160, MATH 165, or<br>MATH 181             | STAT 101 or STAT 104             | 7 to 8  |
| <i>Non-Calc Sequence (AgLS)</i>               | any AgLS approved math                         | STAT 101 or STAT 104, & STAT 301 | 7 to 8  |

#### Chemistry

Biology majors must complete at least one semester of general chemistry (with lab), one semester of organic chemistry (with lab), and one semester of biochemistry. Several sub-disciplines of biology will require more than the minimum, and students should speak with their advisors for more information.

|                          | General Chem                             | Organic Chem                             | Biochemistry                  | Credits  |
|--------------------------|--|--|-------------------------------|----------|
| <i>Minimum Sequence</i>  | CHEM 163 & 163L                          | CHEM 231 & 231L                          | BBMB 316                      | 12       |
| <i>Advanced Sequence</i> | CHEM 177 & 177L -and-<br>CHEM 178 & 178L | CHEM 331 & 331L -and-<br>CHEM 332 & 332L | BBMB 420 -or-<br>BBMB 404/405 | 20 to 23 |

#### Physics

One semester of physics is required for biology. Some career paths may require a year of physics.

|   | Courses              | Credits |
|---|----------------------|---------|
| <i>Single Semester Physics</i>            | PHYS 115 & PHYS 115L | 5       |
| <i>Full Year Physics (algebra-based)</i>  | PHYS 111 & PHYS 112  | 10      |
| <i>Full Year Physics (calculus-based)</i> | PHYS 221 & PHYS 222  | 10      |

## Approved Advanced Biology Courses

Biology Program at Iowa State University

Course offerings vary by semester; check the catalog and [classes.iastate.edu](http://classes.iastate.edu)

| Course #    | Biology Course Name                   | Credits | Course #    | Biology Course Name                    | Credits |
|-------------|---------------------------------------|---------|-------------|--|---------|
| BIOL 322    | Intro Bioinformatics and Comp. Bio    | 3       | BIOL 451 •  | Plant Evolution & Phylogeny            | 4       |
| BIOL 328    | Molecular Cell of Human Disease       | 3       | BIOL 454 •  | Plant Anatomy                          | 4       |

| BIOL 350    | Comprehensive Human Anatomy           | 3       | BIOL 458    | Ornithology                            | 2       |
| BIOL 351 •  | Comparative Chordate Anatomy          | 5       | BIOL 458L • | Ornithology Lab                        | 1       |
| BIOL 352 •  | Vertebrate Histology                  | 4       | BIOL 459    | Mammalogy                              | 2       |
| BIOL 353 •  | Introductory Parasitology             | 3       | BIOL 459L • | Mammalogy Lab                          | 1       |
| BIOL 354    | Animal Behavior                       | 3       | BIOL 462    | Evolutionary Genetics                  | 3       |
| BIOL 354L • | Animal Behavior Lab                   | 1       | BIOL 464    | Wetland Ecology                        | 3       |
| BIOL 355    | Plants and People                     | 3       | BIOL 465 •  | Morphometric Analysis                  | 4       |
| BIOL 356 •  | Dendrology                            | 4       | BIOL 471    | Introduction Conservation Biology      | 3       |
| BIOL 364    | Invertebrate Biology                  | 3-4     | BIOL 472    | Community Ecology                      | 3       |
| BIOL 365 •  | Vertebrate Biology                    | 4       | BIOL 474    | Plant Ecology                          | 3       |
| BIOL 366 •  | Plant Systematics                     | 4       | BIOL 476    | Functional Ecology                     | 3       |
| BIOL 370    | GIS for Ecology and Env't Science     | 1-6     | BIOL 480 •  | Studies in Marine Biology              | 1-8     |
| BIOL 371 •  | Ecological Methods                    | 3       | BIOL 481 •  | Summer Field Studies                   | 1-8     |
| BIOL 381    | Environmental Systems I               | 3       | BIOL 482 •  | Tropical Biology                       | 1-4     |
| BIOL 382 •  | Environmental Systems II              | 3       | BIOL 484    | Ecosystem Ecology                      | 3       |
| BIOL 393 •  | N. American Field Trips               | 1-4     | BIOL 486    | Aquatic Ecology                        | 3       |
| BIOL 394 •  | International Field Trips             | 1-4     | BIOL 486L • | Aquatic Ecology Lab                    | 1       |
| BIOL 402    | Introduction to Pathology             | 3       | BIOL 487    | Microbial Ecology                      | 3       |
| BIOL 414    | Life History & Reproductive Strategy  | 3       | BIOL 488 •  | Identification of Aquatic Organisms    | 1       |
| BIOL 423    | Developmental Biology                 | 3       | BIOL 489 •  | Population Ecology                     | 3       |
| BIOL 423L • | Developmental Biology Lab             | 1       | BIOL 490    | Independent Study                      | 1       |
| BIOL 428    | Topics in Cell Biology                | 3       | BIOL 491 •  | Undergraduate Teaching Experience      | 1-2     |
| BIOL 430    | Principles of Plant Physiology        | 3       | BIOL 492    | Preparing for Grad School in Biology   | 1       |
| BIOL 434    | Endocrinology                         | 3       | BIOL 494 •  | Biology Internship                     | 1-3     |
| BIOL 436    | Neurobiology                          | 3       | BIOL 495    | Undergraduate Seminar (various topics) | 1-3     |
| BIOL 439    | Environmental Physiology              | 3-4     | BIOL 498    | Cooperative Education                  | R       |
| BIOL 444    | Introduction to Bioinformatics        | 4       | BIOL 499 •  | Undergraduate Research                 | 1-3     |

Students may apply a maximum of 7 credits of the following: BIOL 480, 481, 490 (2 cr max), 491 (2 cr max), 494, and 499 towards advanced biology. Lab courses are denoted by •. Courses below are graduate level courses open to undergraduates by prerequisite or permission and typically offered alternate semesters.

| Course # | Graduate Course Name                     | Credits | Course #  | Graduate Course Name                     | Credits |
|----------|--|---------|-----------|--|---------|
| EEOB 507 | Advanced Animal Behavior                 | 3       | EEOB 578  | Foundations of Theoretical Ecol. & Evol. | 3       |
| EEOB 514 | Life History and Reproductive Strategies | 3       | EEOB 581  | Environmental Systems I                  | 3-4     |

**Iowa Lakeside Laboratory** – courses taken over the summer at Iowa Lakeside Lab often count towards advanced biology requirements. Please check for available courses on the Lakeside Lab web page (<http://www.continuetolearn.uiowa.edu/lakesidelab/>) and consult your advisor for those that apply to the degree program.
