Obtaining a Bachelor of Science degree in biology at Iowa State University requires the completion of 120 credits total. Up to 65 semester hours (97 quarter hours) earned at two-year colleges can be applied, as can courses taken at other 4-year institutions. All students must maintain a 2.0 or higher cumulative grade point average (GPA) to complete a degree. The final 32 credits of coursework must be taken at Iowa State.

Students are ultimately responsible for all issues concerning the satisfactory completion of degree requirements, and should be aware that many professions require specific courses that may go above and beyond the minimum degree requirements of the Biology Program.

University Requirements

Course #	Course Name	Credits	FYI...
ENGL 150	Critical Thinking and Communication	3	A grade of C or higher is required in ENGL 150, ENGL 250, and the advanced communications course.
ENGL 250	Written, Oral, Visual, and Electronic Composition	3	
(variable)	Advanced Communications (determined by major/college)	3	
LIB 160	Information Literacy	1	International Perspectives and U.S. Diversity are frequently double-counted with college-level degree requirements
(variable)	International Perspectives	3	
(variable)	U.S. Diversity	3	

Additional information about University requirements can be found at (<http://catalog.iastate.edu/collegescurricula/>); details about English requirements, including test-out and placement, at (<http://www.engl.iastate.edu/isucomm/>); and lists of approved courses that meet International Perspectives and U.S. Diversity at (<http://www.registrar.iastate.edu/students/div-ip-guide>).

College Requirements

Students may major in biology either through the College of Liberal Arts and Sciences (LAS) or the College of Agriculture and Life Sciences (AgLS). The differences in requirements are as follows:

	LAS Requirement	AgLS Requirement
Foreign Language	101/102 college level -or- 3+ years in high school	none required
Advanced Comm.	writing (ENGL 302 to 316) or speech (SP CM 212)	speech (e.g., SP CM 212)
Math	mathematics and/or statistics	mathematics AND statistics
Science	natural sciences	biological and physical sciences
Arts & Humanities	12 credits (~4 courses)	3 credits (~1 course)
Social Sciences	9 credits (~3 courses)	3 credits (~1 course)
Ethics	none required	3 credits (~1 course)

LAS also requires 45 credits of 300-level coursework, all but 7 of which are met by completing minimum requirements of the biology major. Lists of approved courses that meet the general education requirements for the two colleges can be found at: (<http://www.las.iastate.edu/students/academics/general-education/>) and (<https://www.cals.iastate.edu/student-services/home>) for LAS and AgLS, respectively.

Biology Major Requirements

Students must have at least a 2.0 GPA for the biology core and the advanced biology areas of the major.

Biology Core

Course #	Course Name	Credits
BIOL 110 -or- BIOL 112	Introduction to Biology -or- Transfer Student Orientation	1
BIOL 111	Opportunities in Biology	0.5
BIOL 211 & BIOL 211L	Principles of Biology I & Lab	4
BIOL 212 & BIOL 212L	Principles of Biology II & Lab	4
BIOL 312	Ecology (with lab)	4
BIOL 313 & BIOL 313L	Principles of Genetics & Lab	4
BIOL 314	Principles of Molecular Cell Biology	3
BIOL 315	Biological Evolution	3

Advanced Biology

Select 21 credits of coursework from the approved list (see pages 3 and 4). At least 9 of these credits must be from BIOL, EEOB, or GDCB course offerings, and 2 courses must include a laboratory/field component.

Complementary or Supporting Science Requirements

Mathematics

Students must complete two semesters of calculus and/or statistics. Appropriate sequences depend on career interests and choice of college. Biology majors in LAS may opt to take calculus or statistics only, while biology majors in AgLS must take one statistics course and one math course (typically calculus).

	Mathematics Courses	Statistics Courses	Credits
<i>Statistics Only (LAS)</i>	<i>none (LAS option ONLY)</i>	STAT 101 or STAT 104, & STAT 301	7 to 8
<i>Calculus Only (LAS)</i>	MATH 165 & MATH 166	<i>none (LAS option ONLY)</i>	8
<i>Calc & Stat (LAS or AgLS)</i>	MATH 160 or MATH 165	STAT 101 or STAT 104	7 to 8
<i>Non-Calc (AgLS)</i>	any AgLS approved math	STAT 101 or STAT 104, & STAT 301	7 to 8

Chemistry

Biology majors must complete at least one semester of general chemistry (with lab), one semester of organic chemistry (with lab), and one semester of biochemistry. Several sub-disciplines of biology will require more than the minimum, and students should speak with their advisors for more information.

	General Chem	Organic Chem	Biochemistry	Credits
<i>Minimum Sequence</i>	CHEM 163 & 163L	CHEM 231 & 231L	BBMB 316	12
<i>Advanced Sequence</i>	CHEM 177 & 177L -and- CHEM 178 & 178L	CHEM 331 & 331L -and- CHEM 332 & 332L	BBMB 420 -or- BBMB 404/405	20 to 23

Physics

One semester of physics is required for biology. Some career paths may require a year of physics.

	Courses	Credits
<i>Single Semester Physics</i>	PHYS 115 & PHYS 115L	5
<i>Full Year Physics (algebra-based)</i>	PHYS 111 & PHYS 112	10
<i>Full Year Physics (calculus-based)</i>	PHYS 221 & PHYS 232+L	10

Iowa Lakeside Laboratory – courses taken over the summer at Iowa Lakeside Lab often count towards advanced biology requirements. Please check for available courses on the Lakeside Lab web page (<http://www.continuetolearn.uiowa.edu/lakesidelab/>) and consult your advisor for those that apply to the degree program.
